KNOW THE WEATHER

By T. H. Bass

Does falling snow indicate approaching rain? Is it true that rain on moist weather ever, without exception?

Interestingly, the old expressions do not without cause. So the snow ground, gone together in groups, usually precedes by a light precipitation. When the pressure is high, next to the ground, then a tendency to build is noted.

That's because the layer of cooler moist air next to the earth's surface (the weather) is piled high, and pushing down heavily. But when the above is thinner and pressure upward is relieved, most might flakes of fall.

Even when there are extreme, such as weight of the heavy snow, a tendency to break of. So the latter part of setting in rain preceding snow, also a short drought—are which have been observed through the centuries, this one is treated in scientific fact.

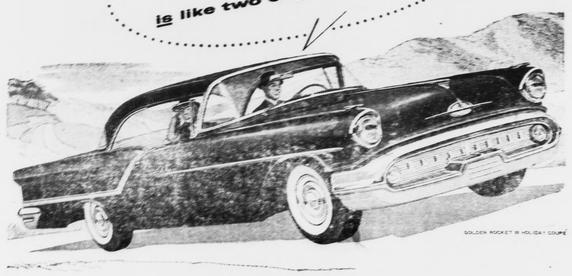
"That proves it to me... the J-2 Rocket is like two engines in one!"



GOLDEN ROCKET 88 HOLIDAY COUPE

HE: Right! This J-2 Rocket* is really a new driving experience!

FRIEND: Well, I've handled a Rocket Engine before, but nothing like this. They've always had pep, but this one's got that extra pep when you need it!

HE: Don't forget economy.

FRIEND: Yes, but you can't feel economy.

HE: Feels pretty good to the pocketbook.

FRIEND: Right! But it beats me how you get economy with a big car like Olds.

HE: Easy. For cruising around, you just use one dual-barrel carburetor.

FRIEND: Bet that waters down your performance some.

HE: Not a bit. I've got regular Rocket performance right through the economy range. And believe me, that's plenty. But if you need more power . . .

FRIEND: Then what?

HE: Go to Stage Two. You just saw what that does. Give it three-quarters throttle and you've got three dual carburetors dishing up more power and torque.

FRIEND: Tell you the truth, I've always liked an Olds. Thought we might get one ourselves some day.

HE: Checked the price lately? You'd be surprised how easy it is to own.

*277 h.p. Rocket V-8 Engine standard on all models. J-2 Rocket Engine, with 300 h.p., and special Rocket Engine, with up to 312 h.p., available at extra cost.

SONIC BOOM SCARES BEES

Los Angeles.- A sonic boom, caused by a jet aircraft, disturbed a queen bee, which took off from her hive in the hills and caused the home of Mrs. Theresa Fiorentino to be covered with bees. She and a visiting neighbor were virtual prisoners in her home. Mrs. Fiorentino called the police, but by the time the police bee expert arrived, the bees had swarmed to a nearby bush and were removed without too much trouble.

HORSE WINS OVER TRUCK

Ashley, Ill.- An oil truck struck a horse on a highway near Ashley. The horse ran off, apparently uninjured, but the truck had to be towed away. Damage to the truck was estimated at $250. The driver, Clark Richards, 22, was not hurt.

IN MEMORIAM

In sad but loving remembrance of our dear son and brother, Wesley M. Franklin, who was taken away from us five years ago, April 2nd, 1952.

Everything has been so lonesome
Since you went away.
We are praying that God will give us strength to bear this sorrow.
Courage to fight the how.
But what we have suffered,
No one will ever know.

Dearest son, you have left us,
Left the home you loved so well.
But some day we hope to meet you
And together we shall dwell.

Faithful and honest in all your ways,
Devoted and true to the end of your days.
Loving, gentle, patient and kind,
What beautiful memories you left behind.

Days of sadness still come over us.
Secret tears go often flow.
When we think of how you left us
On this loneley earth below.

A happy home we once enjoyed,
How sweet the memory still.
But death has left a loneliness,
This world can never fill.

When evening shadows are falling,
And we are all alone;
There comes a longing in our heart,
If you could only come home.

Often to your grace we wander,
Place some flowers with loving care.
And we feel that you are near us,
As we sadly linger there.

—Sadly missed by Mother,
Father, Sisters and Brothers.

CARD OF THANKS
